

## TVK Fall Meeting 2022 in Deventer

On November 19 we had another face-to-face meeting, in Deventer (NL) this time. The nautical flavor was found in taking the ferry across the IJssel.

We learned much about the history of Deventer during the city tour led by skilled guides – each of which had their own perspective on the story, as it turned out.

After lunch in the hotel, Peter van der Waa told us about his quest and its results during the presentation 'The Wonderful World of Trintella Scale Models'

(*"De wondere wereld van de Trintella schaalmodellen"*), a thrilling story about the ways the models were 'salvaged'.

The surprise was in the displayed models by some model builders. For some of them even the interior was finished and was visible by removing the detachable cabin roof. It demonstrated immense love and patience.

There was a lot of work for the General Member Meeting. The annual reports and the suggested (re)elections for the board members were approved, the resigning board and committee members who were present were decorated as Members of Merit of the Trintella Vriendenkring. The secretary explained the demands the legislation has of board members, which results in a lot of work and legal responsibilities for the board members.

Gerard Hoogewerff presented something new: the technical forum on the TVK website. If you have any questions about your Trintella, post them on the forum and the chance is big that you will receive a fitting answer from a fellow member. The advantage of sharing knowledge this way is that all questions and answers remain available.

The preliminary report with all details of the 2022 GMM will soon be available on our website, with the other administrative documents. You will need to log in. Furthermore, Riet and Siem (snr) Poot suggested hosting the next Fall Meeting in fortress town Gorinchem (NL), which was welcomed with a warm applause. We finished with a dinner buffet. All in all, we can look back on a lovely meeting.
