

# *TVK Newsletter*

## *December 2016 – No. 4*

### **From the editors.....**

With this fourth edition of the digital Newsletter the editors have succeeded in publishing four within the first year. We thank the editors, board and committee members who have made a contribution in this. In the Newsletter we try to give as much short, concise and recent information. When a subject is in need of more explanation, we refer to the subject concerned at our website. The automatic link to the site does not work just yet but we hope to fix this soon. Enjoy reading this Newsletter. The editors hope to hear from you, not just when you believe we can do better, but your contribution for a next edition is also much appreciated.

### **Season's Greetings**

In this Newsletter, on behalf of the board, we also wish you a Merry Christmas and a happy and healthy 2017. We hope it will be a period of reflection, in which there is space to dream about beautiful destinations with our gorgeous Trintella's.

### **Autumn reunion 2016 Antwerp**

In the weekend of last November 19<sup>th</sup> about 80 attendees enjoyed the traditional autumn reunion. It was hosted for the 47<sup>th</sup> time and this time in Antwerp.

Antwerp was a beautiful location for this event, with its atmospheric inner city with lovely plazas and monuments. There was a visit to the Red Star Line Museum, which impressively showed that migration is of all times and is usually enriching. During the sociable lunch in the Groote Witte Arend we reflected on this sealing season and found inspiration for future destinations. The afternoon program was concluded by a relaxed and informative tour of most of the many sights to admire in the city. The weather gods were on the attendees side: it did not rain and was mostly sunny. Back in the hotel, which was fine by the way, a quick and decisive Annual Meeting (ALV) of the members took place, and finally the finish of the reunion with a well-organized diner buffet.

### **Trintella profile drawings a success**

During the research for the book Trintella Yachts, we ran into several beautiful profile drawings of Trintellas in the Municipal Archives in 's Hertogenbosch. The creator remains unknown. After polling the interest, Loet Geldhoff took the initiative to delve into his hidden talents and create series of Trintella drawings, based on the findings in the archives. By now **15** model sketches have been made. During the autumn reunion no less than ten were sold. A success!

Interested? Details and procedure for ordering can be found at our TVK shop catalogue on the website.

## Contribution withdrawal extended

The contribution of the association's year 2016-2017 has been set on 30 euros during the member meeting on last November 19<sup>th</sup>. This sum will be collected in January, for most members by direct debits. This is a little later than usual. The reason for the move of this moment is that the banks will simplify collection procedure as of January 1<sup>st</sup> 2017.

## Perfectly restored Trintella Ia at BOOT Düsseldorf.

This autumn, the TVK received an elaborate email from mister Wolfgang Willutzki. In 2008, mister Willutzki bought a Trintella Ia in the Netherlands. Neither costs nor efforts were spared to get this ship, the 'Anais', in impeccable state, while retaining her traditional character. Absolutely everything has been dealt with and has been changed to the current state of technique. Mister Willutzki is very willing to personally inform TVK members about this unique refit. You can find the 'Anais' in Hall 14 at the Classic Forum Stand at the exhibition BOOT Düsseldorf, which will be held from the 21<sup>st</sup> to the 27<sup>th</sup> of January.

Should you wish to know more about this unique refit, the website hosts an overview of the refit activities and several recent photographs.

## Trintella on YouTube

Many of you will know the YouTube canal, where the category 'sailing' shows the most bizarre, but also beautiful and informative clips. Have you tried the keyword 'Trintella' to find anything yet? Maybe you yourself have short films that are worth uploading? Enjoy watching these clips!

## Events-calendar 2017 – put them in your planner!

- **March 8<sup>th</sup> – 12<sup>th</sup>**: Hiswa Amsterdam Boat Show RAI

## **Profile at Vriendenboek okay?**

In 2016 replacement of the well-known 'Smoelenboek' became a fact. The member profiles can now be found at the TVK website, under the 'Vriendenboek' tab in the menu bar. If you are logged in, that is. Many members have found the way to the book and have checked the information on their profile and have provided it with recent pictures.

If you need help with logging in, uploading pictures et cetera, please email:
